PRILADELPHIAS EASILY DEFEAT THE CLEVELAND TEAM. Strengthen Their Hold on Fourth Place

- Rain Prevents Play at Pittsburg -Western Teams Begin Their First Series on Eastern Diamonds To-Day. The majority of the National League teams spent yesterday in travelling east. The Phila-delphias, however, easily defeated the Clevelands and tightened their hold on fourth place. Rain prevented the Pittsburg-Washington contest. To-day the Eastern teams begin their first series with the Western teams at home. The Louisvilles will meet the Brook lyns, leaders of the race, this morning and af ternoon at Washington Park, and If the weather is propitious the crowds may be record breakers. The Cincinnatis are sched-uled for two games with the New Yorks, the Clevelands will tackle the Bostons, Chicago opens in Philadelphia, St. Louis is to tackle timore, and Washington remains in Pittsburg. The results:

Philadelphia, 7; Cleveland, 1. At Pittsburg-Rain.

NEWS OF THE HARNESS HORSES.

who visit Speedway Park are likely to see some rare sport with the harness horses

Nathan Straus said last Sunday that he would

be on hand again to-day with his great trotter Cobwebs, 2:12, ready to take a shy at Daniel O'Dell's fast pacer Quadriga, 2:08%, or any-

thing else that happened to be in sight. There may also be a brush between some of the crack

teams that have been stirring up the dust on

the Speedway this spring. John F. Cockerill,

who drives the brown mares Rival, 2:17%, and

Honor Bright, 2:28%, is looking for a pair of trot-

ters that can show him the way from the bend to the bridge. Charles Chipman, who brought

the fast pair, Jack Miller, 2:17%, and Sam T., from Philadelphia several weeks ago, was

ready to accommodate the metropolitan road

rider last week, but just as he reached the

Speedway Sam T. went lame, W. M. V. Hoff-man started May K., 2:245, and Magic Flute,

other day, but they were not quite ready for

business, and Magic Flute spolled the fun by

making a break right at the start. It is a sin-

gular coincidence that three of the four trot-

ters in these two fast teams were got by the same sire, Antonio. 2:28%, the son of Messen-

Teams wishing open dates and offering suitable inducements should address James Labey, 147 William street, Nowark, N. J. but it was a hopeless stern chase, and the Topgallant, horse won in a gallop. The day's sport opened with a sprint for maiden two-year-olds over the five-furiong course. Seventeen of the eighteen named overnight accepted the issue and there was some wild picking. The bookmakers originally selected the best one. Water King, the colt

quarter and Estaca also made a momentary bid for the money. When this pair got through King Barleycorn set sail for Algol,

some wild picking. The bookmakers originally selected the best one. Water King, the colithat made such an impressive bid for the stake at Morris Park the other day. They held him at 2 to 1 until a plunge set in on John Daly's Fremature. The price against the son of His Hignness—Early Blossom quickly tumbled from 8 to 1 to 3 to 1 and Water King went up to an equal figure. The Water King people and many others were inclined to regard the Daly candidate as a gold brick, but Fremature flattered his supporters for four furiongs, and, leading all the way round the turn, he struck the attech a head in front of Water King, to whom Peaceful was hanging on. There was a rousing drive home between this trio, but Water King had much the most left and won by a neck. Peaceful outran the Daly "good thing," and beat him a leigth and a half for the place.

The third race was over the same route and another large field confronted the starter. The going was supposed to suit Ceearion a tender shins and the ruled favorite, but the heaviest play was possibly on M. F. Dwyer's noted Kingston filly. Satin Slipper. Her price was cut from 3 to 1 to 11 to 5 and there was also a pronoun-ed move in favor of E. L. Graves's filly Theory. Athy broke in front, but she was outfooted by Theory after a furlong. Then Cesarion took a hand, and when he struck his gait it was all over. Clawson took the old horse clean out in front and brought him home two lengths clear of Theory, who lasted long enough to bent Athy a neck.

For some unexplained reason Rhinelander.

brought him home two lengths clear of Theory, who lasted long enough to beat Athy a neek.

For some unexplained reason Rhinelander was made a strong favorite in the fourth race. It was said that prior to his purchase by Svdney Paget recently he had worked a phenomenal trial and that probably accounted for his price being rubbed to even money. Meanwhile M. F. Dwyer and his followers were hot on the trail of Greatland, and they proved to be the best judges, as the brooklyn veteran's coit took the track after flagfall and won out by a head. Rhinelander made a strong hid toward the finish, but did not show anything near the form predicted when John E. Madden sold him.

The most interesting feature of the fifth race was the fact that the produce of Marcus Daly's stable finished 'one, two, three,' Sadduces was bought out of a seling race at Aqueduct: the stable sold Montanic about the same time and held back Inishiree. Testerday's contest proved a romp for Sadduce, after Montanic had made the running to the stretch. Inishiree staved well up all the way and finished a good third.

The last race was a six-furlong scramble for three-year-olds and upward. Turney Bros. The Burilington Route was played to the limit, but Oliver Mc easily beat him home a length. The others were well strung out. Summary: Although the Cockerill mares were hooked together for the first time only a few weeks ago many road riders believe they can trot faster than any team yet seen on the Speedand way of going, and they have been called full sisters. Charles Backman of Stony Ford bred them both. They are by Antonio and their dams are by Leland, and their grandams by Kentucky Prince, while their third

Stream, so that although their blood lines are similar for three generations on both sides they are not full sisters. Cockerili was so confident of their prowess in double harness that he started them up, against Cobwebs, 2:12, a short time ago, and to the surprise of everybody on the Speedway they gave the big chestnut trotter one of the hardest contests he has seen. A. M. Rose, owner of the crack pacing team Sir Eld, 2:144, and island Bello, 2:245, thinks his cross-matched pair can take the trotting mares into camp, and both owners have signified their willingness to settle the question on next Sunday morning in a brush from the bend to the bridge.

Momorial Day barness races have been arranged for several tracks about New York. At the Dundee mile track four purses of \$200 each have been hung up for trotters and pacers of the 2:15, 2:19, 2:20 and 2:35 classes. At Singac, N. J., three races are to be decided for purses of \$100 and \$200. Another meeting is on the card at the Mountain View Driving Park, Orangeburg, N. Y. Alexandor Newburger, who will start the horses, says the 2:22 class for this meeting has eleven entries and the 2:50 class seven entries. A three-cornered sweepstakes and two other races will be decided at the old Guttenburg racetrack, if the weather is favorable. Parkway will have a friendly race to road wagon between E. T. Bedford's chestnut trotting mare Lily Young, 2:10%, and Sheriff Frank Creamer's black gelding Riffe, 2:11%. Two other races are also on the card, along with a trial of the guideless pacer Neil Aleyoner, 2:10%.

Michael Reid, owner of the handsome, square-gaited little speedway trotter, Madison Chief, 2:17%, by Madison Wilkes, added a new road horse to his collection a few days ago by purchasing at the Cleveland sale the gray trotter from Bar, 2:11%. This fellow won six out of saven races last year, cutting his record from 2:14% to 2:11% at Windsor, Ont. He is a nine-year-old gelding, by Temple Bar, 2:17, and his dam was Camille, by Mambrino Bob; grandam by West Wind, the half-thoroughbred son of Alexander's Abdallah. He is said to be a fine road horse, His new owner has not yet tried him on the Speedway.

The Great Western Trotting Circuit, which was formed by track managers in the Missisappi Valley last winter with a view to rivaling the Grand Circuit, is not receiving the support expected from horsemen who campaign trotters and pacers. Reports from the West state that entries for the early closing races at Davenport, Dubuque, Joliet and Independence are too light to warrant the managers in letting them stand, and nearly all have been declared off. though not an early closing race in the Grand Circuit of 1836 was declared off for lack of entries, the lists this season were not generally up to the mark of former years. Many shrewd horsemen say that Fastern track managers must either reduce the cost of entering in installment purses or else abandon the system airogether, as the average owner finds it to be a losing game in the long run.

The turity action of the Board of Review of the N. T. A. in reinstating li. A. Fairbairn's bay mare Margin, 2:174, by Madrid, will restore to the turit one of the most promising trotters in New York, Fairbairn has sent her to Hartiord, and she will be trained there by E. R. Bowne, Margin was formerly known as Charter, and made a record of 2:24 under that name in 1892. Jeromiah Murphy bought her in 1897, and although she was good in herelase, campaigned her under the name of Rose in the slow classes at fail meetings, hereabough, for which he and the mare were expelled. Fairbairn bought the trotter from Murphy while the case was pending, doing so with the understanding that on payment of a sum equal to the mare's unlawful winnings she would be reinstated. The N. T. A. accepted Fairbairn's money, and then formally expelled the mare. The New York turfman employed ex-Juage H. M. Whitehead to represent him, and would probably havecarried the case into the civil courts if the turftribunal had refused longer to restore the foster to good standing. GOSSIP OF THE BIG FIGHT. John L. Sullivan Instructs Jeffries How to

A letter has been received by Billy Delaney, manager of Jim Jeffries, from John L. Sullivan. The ex-champion, who met Jeffries upon the latter's arrival in this city last year, thinks a great deal of the young Californian. This is John L's letter:

FRIEND BULLY: I thought I would drop you a line as the battle between Jeffries and Fitzsimmons is drawing near. Now, Billy, what I want to say is to have Jeff keep on top of that Kangaroo from start to finish. He has never had a chance at him in that manner; but still, at the same time, have Jeffries watch himself closely, and leave no opening for his stomach or kidneys. Give that red-headed guy no chance for any solar plexus, which is all balderdash and a new name for a punch in the pit of the atomach. Now, pay strict attention to what I am writing you. I want Jim Jeffries to beat that fellow, and he can do it, sure. I only wish I could be there to second him along with you, but I cannot, but my prayers are with you and Jeff.

When Jeff gets in a good soak at him never let him stop until he finishes him there and thon, no matter if it is in the first or last round. For Ged's sake, keep this in maint tell him how I used to de it in my palmy days. Keep him in good spirits and encourage him all through his work, it will be only play for him when it is all over. And every American will be proud to say we have an American champion once more. Do not overlook this letter of instructions. I am with you heart and soul. I am an American, first, last and always. Remember me to all the boys. And now closing, with the best of luck and wishes for yourself and Jim Jeffries, I remain, yours sincerely.

WINNIPES, May 28, 1890. am writing you. I want Jim Jeffries to beat that

A FRIEND TO BOTH BILLAY DELANET AND JIM JEFFRIES.

There was much ado on the part of Jeffries's admirers vesterday to take any edds offered by the believers in Filzsimmons. The cause of this sudden changs was not explained, but it is due to the fact that the impression is growing that before the week ends the boilermaker will be quoted at even money. Of course such a thing is viewed as an impossibility by "Lanky Bob's" supporters, but Jeffries's admirers say that this turn of affairs will surely come when the betting public learns of the fine condition of the Californian.

The possibility of Mrs. Fitzsimmons being in her husband's corner, as announced in The Sun of yesterday, was received with much interest by the sports. Although it is known that Fitz would like to have his wife behind him, his wish is not likely to be granted, for Alce Brown states that under no circumstances will women be permitted to enter the building.

It has been suggested that there may be a possible chance of a mistake cropping up in keeping toll of the seconds in case one of the rival fighters should go down during the fight. Brown thinks that two automatic clocks will be placed directly over the ring, in full view of the spectators. As soon as one of the purillast is floored the referee, by placing his finger on a button connecting with the clocks, could suickly set the second hands in motion and thereby avoid any chance, so Brown believes, of an error in the time. The idea is not a new one, having been used by the California A.C.

There was quite an influx of aporting men

a new one, having been used by the California A.C.

There was quite an influx of sporting men yesterday from out of town. Frank Bangs received a commission of \$2,000 to invest on Joffries at prevailing figures. Bangs is also going to back Jeffries with some of his own lucre, and says that any legitimate better can be accommodated. Martin Dowling's wad of \$5,000 is fast diminishing. Yesterday he backed Jeffries to the tune of \$1,000 to \$1,700 with a Boston friend. Billy Delaney, who was in town, said to a reporter of Tark Sun the ringside. He is confident that the Californian will prove as great a surprise to the sporting world as Corbett did when he vanquished Sullivan in New Orleans seven years ago. At Invel Holland's yesterday E. S. Gilmore placed \$300 to \$200 on Fitz. Holland is stakeholder. Jacob Lowy has also invested \$200 more on Fitzsimmons. Lowy gave odds of 8 to 5. Barney Aaron, who is backing Fitz, wantsto place \$500 on the Cornishman.

After the hig bout is disposed of several other good affairs will be put on. Bobby Dobbs has been secured to fight a good man in the lightweight division during the latter part of July. Jack Daly and Jack Everhardt have also been signed to meet in a twenty-five-round contest on June 19.

A BIG ENTRY LIST FOR THE IRVING-TON-MILLBURN RACE. Alexander, the Time Prize Winner for Tw

and Molltor-A Queer Contest on Ancient Cycles-No Color Line in Racing. Cycling events on the card for to-day in this vicinity will offer to the lovers of the sport plenty of room for choice. There will be track and road racing for amateurs and professionals, but the Irvington-Millburn road event will be, as of yore, the chief of all in magnitude and popular interest. The number of entries for the twenty-five-mile contest is 127, which is five less than last year; a demonstra-tion of the lasting popularity of the classic course over the Jerseyhills. The latter is a five-mile stretch of road, starting from the middle and making two and a half laps. One end is at Irvington and from there it runs over what are known as the "Two Sisters" hills, through Hilton and over a still bigger hill to Maplewood and on to Miliburn. The record for the course is held by Monie Scott, who, in 1896, rode it in 1 hour 8 minutes and 21 seconds. For two years past the time prize has been won For two years past the time prize has been won by R. M. Alexander of Hartford, who will today start from seratch. His companions on the back mark will be Adolph Michael of Jersey City, who won the time prize in the Elizabeth-Springfield road race last year, and Paul Molitor, time prize winner in the Merrick road race. The handicaps stretch out to seven minutes, which is the limit. John McCarthy, Jr., the winner last year, will be found on the two-minute mark with J. W. Hissins, winner of the Hudson County race in 1848. Last year both of these men were at the six-minute mark. On the one-minute mark are such well-known road scorchers as F. J. Peer, T. R. Goedwin of Brooklyn and Jogen Hansen and John Cunningham of Perth Amboy. The race will be started at 11 o'clock.

"A race on antique wheels" was what the Waverly Wheelmen of Brooklyn called the novel cycling event that occurred in the greater city on Sunday. A "ramahackle revel" or any other term denoting hilarity over decrepitude and mishaps would have been quite as good a designation. On any old wheels, if only they antelated 1893 in manufacture, the members were to ride over a triangular course of nearly four miles for fun, medials and wine. Eleven men appeared at the clubhouse at the junction of Filton attest and Blone avonue on Saturday night, each riding or dragging at arm's length a specimen of bleycle that in former days were regarded as wonderful vohicles, but which the progress of years has made ridiculous. They were all of the satety time, but with frame lines in queer curves or lynny angles. The tires were big snough for automobiles, chains as broad as two fingers, "hammock" saddles big and clumay enough for elephants, while in weight they were all of the "ice-cart" class. Although some had been purchased as "light roadsters," With these relies of cycling's younger days, the men entered for the race indused in "arming up" exercises, which consisted largely in running into each other full tir, trying to see which machine was the toughest. The result was that the eleven wheels lined up for the start at 10 o'clock on Sunday morning. At the signal the men were facing down Fulfon street, and a sharp turn was necessary in order to get into the Stone avenue boulevard. In executing this manguave not a man was successful. All became involved in a general tangle and wont down. The course was along Stone avenue, to Riembrae avenue, to East New York avenue, to Glemmere avenue, to Pennsylvania avenue, to Bushwick avenue, to the clubhouse, a distance of 37-10 miles by cyclometer. The unusual spectacle attracted a big crowl to the starting point, and the contestants were cheered all along the line. A number of membrae of mendings on his tattered could be a successful, and prize was forced or the largest of the Brooklyn even h

WASHINGTON, May 20.—The action in placing a parrier against colored riders has been recona barrier against colored riders has been reconsidered by the American Racing Cyclists Union, which has decided instead to make the union an organization of professional riders only. The union men will not refuse to compete against colored riders in the N. C. A., which agrees to register only men in good standing. The Executive Committee of the union took this action in view of the protests that they were unfair. "Major" Taylor's suspension for his conduct in deserting his fellow riders has been made indefinite. Not one of the professional riders ever expects Taylor to make an application to return. The Executive Committee of the union will hold a meeting soon to take action upon the cases of Nat Butler, Charley McCarthy, Harry Gibson, Eddle McDuffee, Frank Waller and Eddle Aker. This list includes practically all of those who have ridden under the N. C. A. in the past and returned to the L. A. W.

Harvard and Yale Athletes Will Sail for

England on June 28. The joint committee in charge of the negotiations here for the track and field games between Oxford and Cambridge and Yale and Harvard teams practically ended all doubts about the consummation of the match by arranging for the passage of about twenty Yale and Harvard athletes on the St. Paul which will sail for England on June 28 E. E. J. Wendell, who with G. B. Morrison and Capt. J. T. Roche, will act for Harvard in the selection of the men and arrange other preliminary details, says that the team will not be definitely decided on until the terms of the challenge are known. The prevailing impression is that only two men shall represent the American team and two the English in each event. If that is so the probability is that several substitutes will be taken on the trip to meet the contingencies of accidents or loss of form.

The breakdown of L. Blount of Yale in the trial heats of the 100-yard dash at the intercolleginte games on last Friday will be a serious setback for the American team. Blount won the sprint at the Yale-Harvard meet, and would be especially valuable against Oxford and Cambridge, who will have the services of a very fast man in C. R. Thomas of Jesus College, Oxford.

Thomas won the 100 yards at the Oxford-Cambridge games in March in the rather slow time of 19 2-5 seconds. At the meeting of the Amateur A. A. held on May 13, Thomas received credit for a 10-second record for a 10-yard run at the Oxford University sworts on March S. This places his name with those of A. Wharton, C. A. Brailey and A. H. Downer, the English record holders.

They Will Leave on Thursday for the Poughkeepsie Course. Columbia's 'varsity and freshman crews will

eave this city for Poughkeepsle, the scene of the big intercollegiate regatta, on the morning of June 1. They will take up quarters at the Wetheran mansion, a little south of the city. They will then be able to have almost four weeks of practice on the course over which they will race with Cornell, University of Pennsylvania and Wisconsin on June 26 and 27. In this time, the managers believe, the oarsmen will become thoroughly acclimated and used to their surroundings. Both eights have been doing fine work on the

Hudson. Dr. Peet has frequently expressed himself as being much pleased with the stirit and the form the men put into their rowing. There was something of a struggle during the period of examinations, but for the past week improvement has been distinctly noticeable. Peet has been directing his attention especially to the body swing and the slide work, which up to a few weeks ago had been excellent. Now, however, Meyer, at 5, is inclined to swing out of the boat, Le Prince, at 4, is apt to clip his stroke. He is also slow on the catch. Thomas at bow, drops somewhat on the full reach. These are the three offenders with whom Peet is doing the most coaching. The other men seem to maintain their form evenly.

The 'varsities are now rowing stretches of three miles and a half daily, from 'Washington' Fourt to the Edwin Gould boathouse. They sourt out the last half mile. The stroke is kept at twenty-nine except at the finish, when Coxswain Bogue calls out about thirty-six. The boat keeps an even keel and clears ten to twelve feet between strokes.

The freshmen have been doing spurts of mile lately in preparation for their race in the Harlem regatta to-day. On last Thursday they beat out the 'varsity by a length. This is tha first time thus far they have done this in Saturday they casily defeated two crews, the one made up of graduates and 'varsity substitutes and the other of freshmen substitutes and some made up of graduates and varsity substitutes and the other of freshmen substitutes and some made up of graduates and varsity substitutes and the other of freshmen substitutes and some made up of graduates and varsity substitutes and the other of freshmen substitutes and some made up of graduates and varsity substitutes and the other of freshmen substitutes and some made up of graduates and varsity substitutes and the other of freshmen substitutes and some made up of graduates and some made up of graduates and varsity substitutes and the other of freshmen substitutes and some made up of graduates and varsity substitute
